^{*1} Test conditions: 100% depth of discharge (DoD), 0.2C rate charge & discharge at 25 °C, at the beginning of life. If no PV modules are installed or the system has not detected sunlight for at least 24 hours, the minimum end-of-discharge SOC is 15%.

 $^{^{\}star}2$. The weight of the battery module is subject to the actual product, with a tolerance of $\pm 3\%$.

^{*3.} Refer to battery warranty letter for conditional application.

^{*4.} Improper storage system installation may compromise product warranty and operation safety. Please follow the user manual during the installation, use, and maintenance of the storage system.
