Hisense Profile

Hisense was founded in 1969. At present, Hisense owns four listed companies—Hisense Visual Technology (600060), Hisense Home Appliances (000921) SANDEN (6444) and CHANGELIGHT 300102 listed in Shanghai, Shenzhen, Hong Kong and Tokyo. And it also owns many brands including Hisense, Toshiba TV, Ronshen, gorenje, and ASKO. In 2022, Hisense maintained sound growth. The total operating revenue of Hisense group was CNY 184.9 billion and the total profits reached CNY 12.3 billion, increased by 21%. The overseas income reached CNY 75.7 billion. The Hisense International Brand accounted for more than 83%.

According to the Top 50 Kantar BrandZ Chinese Global Brand Builders 2022 launched by Google and Kantar,Hisense was one of the "Top Ten most familiar Chinese brands to overseas citizens" for seven consecutive years. With the products exported to over 160 countries and regions, Hisense has sponsored the world's top sporting events such as UEFA EURO 2016, FIFA World Cup 2018, UEFA EURO 2020, and FIFA World Cup 2022, also became the official partner of Paris Saint-Germain football club. What's more, Hisense is the first batch of innovative enterprises in China and has won the "National Quality Award" twice. Hisense has 23 industrial parks located in Qingdao, Shunde, Huzhou, Czech Republic, South Africa, Mexico, etc. There are also 23 R&D centers located in Qingdao, Shenzhen, the USA, Germany, etc. There are more than 10,000 engineering and technical personnel, and 8,000 masters and doctors, with which Hisense initially established a global collaborative R&D system.

LASER TV

COLLECTION

2023 – 2024

Why Laser TV

01. Innovative
Laser Display Technology

Enjoy all the benefits that this cutting edge technology brings to you. Watch with excitement, refreshing pictures with natural colours and ultra-clear details, not forgetting a physically healthier way of viewing experience.

Remarkable 02.
Picture Quality (For Lifelike images)

Pure laser light source enhanced colour gamut, which leads to more natural colours with high purity and saturation. You will feel awakened by what you see on Laser TV.

03. Bringing
Cinema Home

Rethink how you watch your favourite movies, boxsets and sporting events with the Hisense Laser TV, giving you a cinematic and immersive experience in the comfort of your home.
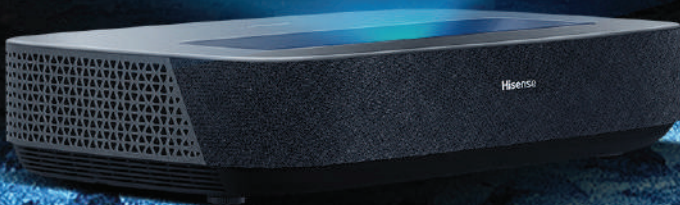

Laser TV vs Projector

Ultra-short-throw Distance

The Hisense Laser TV has an ultra-short-throw distance of just tens of centimeters for 100" or 120" from console to screen, while a conventional projector requires a 6m distance from the screen.

Ultimate Brightness

Brighter and more clearer images. The Hisense Laser TV has 3000+ lumens as opposed to a projector which only has 1 500 lumen.

25 000+ Hours of Entertainment

The Hisense Laser TV has a lifespan of 25 000+ hours while projectors only last around 6 000 hours.
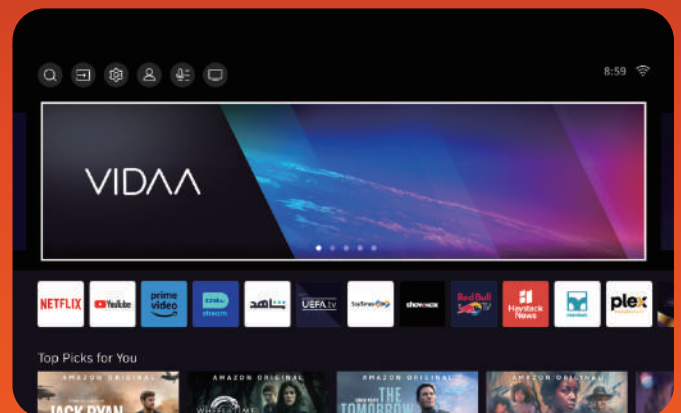

Smart TV

The Hisense Laser TV has a built-in VIDAA U6 Smart system & built-in tuners, while projectors do not.

* Take L9H for reference

Laser TV vs LED TV
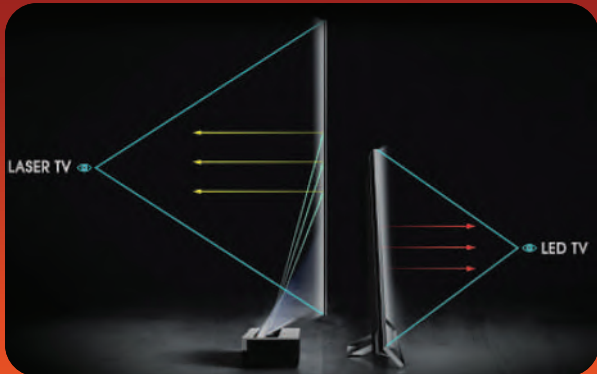

No Eyestrain

With the screen requiring no electricity to function, you will experience zero electromagnetic radiation. Images are projected onto an anti-reflective screen and back into your eyes.

Cinematic Viewing

The 100" Laser TV can be viewed from just 4m away compared to a 65" LED TV, while the 120" Laser TV can be viewed from 4.5m away compared to 75" LED TV
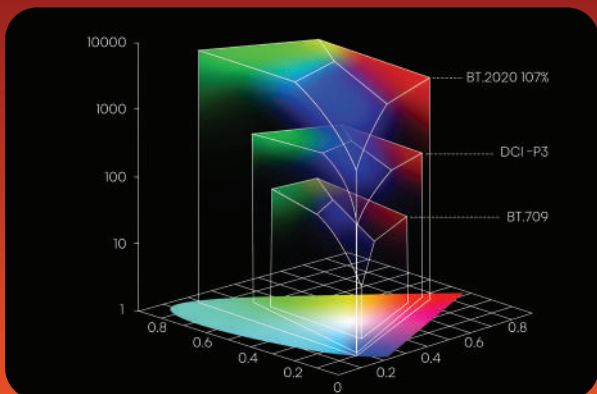

Wide Colour Gamut

The Hisense Laser TV maximises colour production through its Ultra Colour Enhancer and Wide Colour Gamut technology, resulting in authentic, true-to-life pictures over that of LED TVs.

Simplicity & Elegance

The Hisense Laser TV is light in weight and has a very elegant and slim screen design which gives you more screen to view your best shows

Certificate and Media Awards

L9H Series

120"

Triple Colour Laser Light

With more than 1300 applied patents, from 2K to 4K, single colour to triple colour, Hisense are pioneers in the Laser TV industry and continue to produce cutting-edge product.

Colour Redefined

Hisense widened the colour gamut to 107% BT.2020, so when you watch on Trichroma Laser TV, the visuals will always exceed your expectations.

Unparalleled brightness

High Luminance uniformity ensures the brightness at each position on screen stays consistent, generates brighter images.
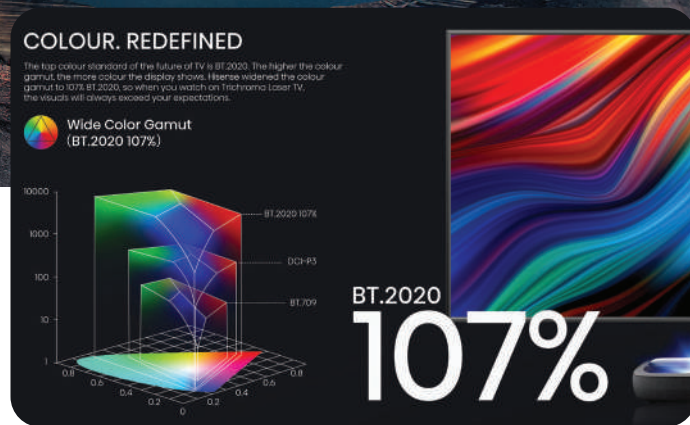

Dolby Vision · Atmos

Dolby Vision HDR dynamically optimises colour, contrast and brightness. And with the sensation of sound moving around you, Dolby Atmos can help you feel like you're right inside the action

L5H Series

100''

Ultra Short Throw Laser TV

Only 29.7cm for 100" to the screen, it is very easy to install and fit in your living room.

Flexible ALR screen

The Laser TV display uses Ambient Light Rejecting technology to boost image brightness and keep colours from appearing washed out.

Dolby Vision · Atmos

Dolby Vision HDR dynamically optimises colour, contrast and brightness. And with the sensation of sound moving around you, Dolby Atmos can help you feel like you're right inside the action

Eye-friendly

The image you see on Laser TV is reflected instead of directly projected towards your eyes with almost 0 harmful blue light exposure. This means putting less strain on your eyes, even when you watch TV for a longer time.

PX1-PRO

Projection Size: 90" – 130"
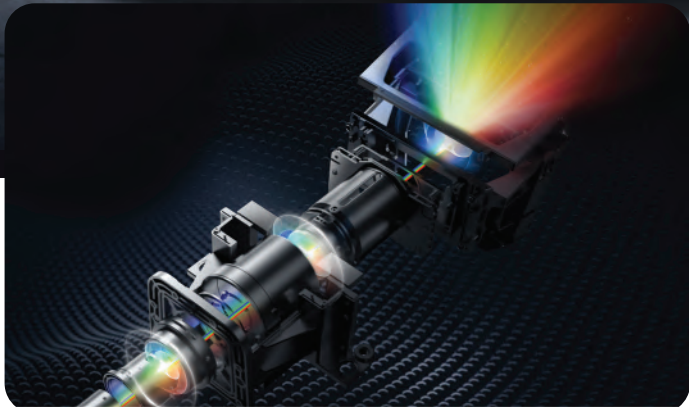

TriChroma

Experience colour like never before, The PX1-PRO uses pure red, green and blue lasers to achieve new levels of colour performance.
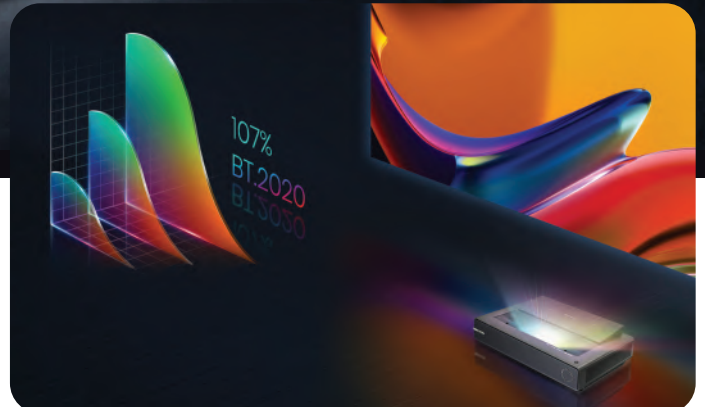

Colour Redefined

Hisense widened the colour gamut to 107% BT.2020, so when you watch on Trichroma Laser TV, the visuals will always exceed your expectations.

Dolby Vision

With support for HDR10, HLG, and Dolby Vision, Laser cinema can leverage High Dynamic Range to further expand the heights and depths of colour and contrast.

Dolby Atmos

Get an HDMI 2.1 port with eACR support so you can squeeze out every high-bitrate audio detail from your Dolby Atmos sound system.

C1 **Projection Size:**
65" – 300"
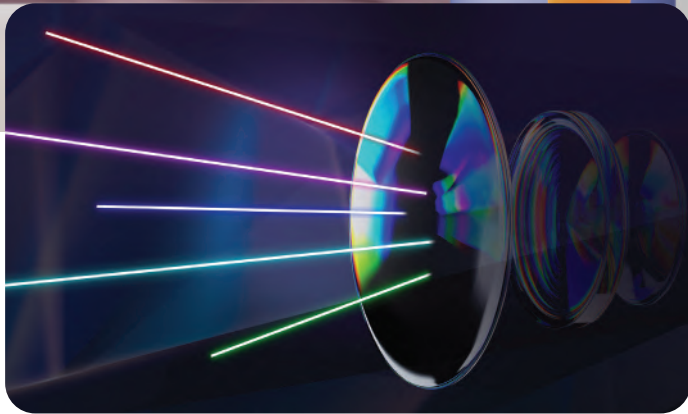

4K TriChroma Laser Projection

The best Laser technology ever used on a mini projector. See the real colour of the future anywhere you want.

Colour Redefined

Hisense widened the colour gamut to 110% BT.2020, so when you watch on Trichroma Laser projection, the visuals will always exceed your expectations.

Dolby Vision

C1 is the world's first ever mini projector equipped with Dolby Vision, along with HDR10 and HLG, C1 offers incredibly rich and satisfying colours within precision contrast.

Theater-like Sound by JBL Sound

C1 paired with JBL audio solution that produces punchy bass and clear treble, resonance in the grandiose 1L sound chamber, so you can hear every note and detail.

REFRIGERATION and Freezer

COLLECTION

2023 - 2024

CONTROL YOUR REF VIA MOBILE PHONE

Smart Connectivity

Thanks to the smart WI-FI mode, your life is a lot more convenient. Adjust your refrigerator's temperature settings anywhere anytime, using your smart companion – ConnectLife App.

Screen Sharing

Need to cook meal but don't want to miss what's happening during the big game? You can mirror your phone to the big touch screen on the refrigerator. Never miss any great moment.

This refrigerator can analyze your door opening times based on your usage habits.

Smart diagnostic

The smart diagnostic feature allows you to quickly check diagnostic results. The refrigerator will perform a self-diagnosis scan and report any problems found.

Shopping List

The shopping list feature allows you to stay organized before going to the store. You can create a shopping list using touch screen, and it will be automatically updated on your smartphone.

Food Inventory

The food inventory feature allows you to view and adjust the temperature and settings of your refrigerator. You can name the items with expiration dates, then you'll receive notifications when they've expired.

Impressive Recipes

The impressive recipes allow you to access 150+ recipes and help you decide what to cook for the week, reducing the stress when you out of dinner ideas.

LEAVING NOTES AND DRAWINGS TO YOUR FAMILY

Message Board

You can use message board to leave reminders or post notes for your family. This is a fun and helpful feature that you will love.

ALWAYS HAVE ICE & WATER ON HAND

Ice & water Dispenser

Hisense's elegant Ice & Water Dispenser offers three unique settings: refreshing water, cubed, and crushed ice. Enjoy a glass of refreshing water or cool off any beverage whenever you want it.

Life is always more than one choice

Without opening the fridge door, you can choose out of ice cubes, crushed ice or chilled water.

Fresh cold water	Crushed ice	Cubed ice
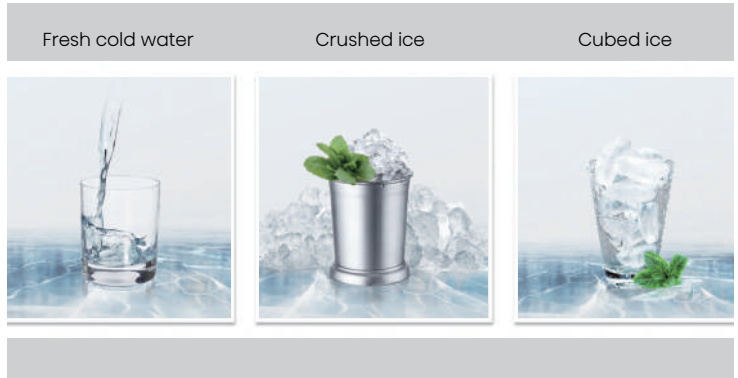

No plumbed water dispenser

The stylish non-plumbed ice and water dispenser offers everyday convenience of cooled water on tap, while also ensuring your fridge to be installed quickly and easily.

✳ Antibacterial Guard

By eliminating up to 99.999 % of bacteria, this refrigerator keeps your food fresh for a longer period of time. Thanks to highly effective antibacterial liner inside, the fridge is bacteria-free, making it more clean and healthy to use.

❄ Metal-Tech Cooling

The rear wall of the fridge is overlaid with stainless steel, which ensures the cool air is distributed evenly from the inside out. This combination of advanced technologies ensures ideal temperature and humidity levels at all time.

❄ Triple Zone

This fridge-freezer is fully adaptable to your needs. It has three different compartments with flexible temperatures - fridge, freezer, and My Fresh Choice section, each with their own controls. You can set the fridge and the freezer to whatever temperature suits you most.
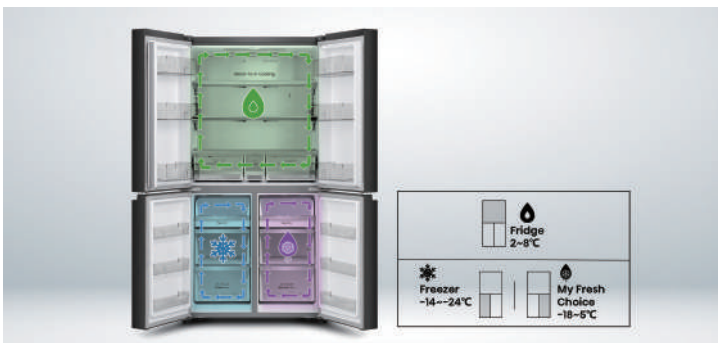

EASILY CONVERTED FROM FRIDGE TO FREEZER

🌡 My Fresh Choice

My fresh choice, the middle compartment, can easily be converted from a fridge and freezer with -18ºC~+5ºC temperature setting. By creating the perfect temperature environment you need, you can prolong the freshness and taste quality of your desired food efficiently.

Recessed Metal Handle

The stylish recessed metal handles give access to easy open doors. The brushed design makes the handle easily fit into any kitchen design.
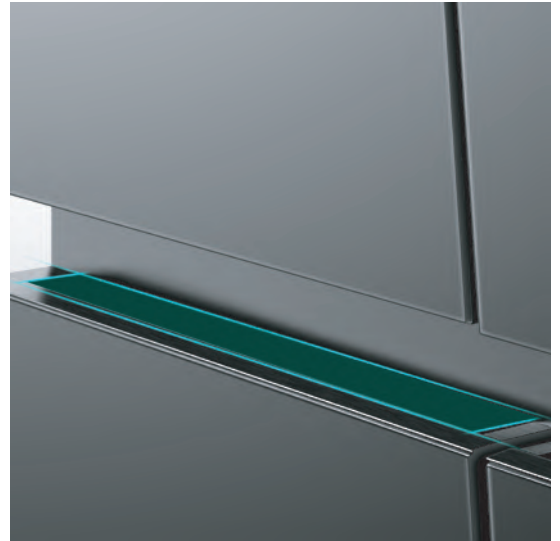

Metal Glide Drawers

All frozen items, even the largest ones, can now be reached easier and quicker, thanks to the durable metal easy-glide runners. Transparent design of the drawers, offers clear overview of the content.

Durable Inverter

The modern inverter compressor measures the conditions inside your fridge and adjust the cooling output accordingly, to ensure a stable temperature, save energy and run quieter, while also extending your appliance's lifespan.

Dual-tech Cooling

The Dual-Tech Cooing system prolongs ideal humidity levels for an odour-free refrigerator and prolonged freshness of the stored food. By assuring different humidity levels in the cooling and freezer compartments, it prevents any mixing of odours and maintains a perfect climate in each part of the fridge.

Cantilever Shelves

Enjoy flexibility with the cantilever shelves. If you want more space between the shelves, simply take one out and place it on a different shelf-holder. That way you can tailor the inside of the fridge specially to your needs , therefore, all the large bottles, mason jars or tall cakes will fit perfectly inside the fridge.

Gallon Door Storage

Plenty of space to store large bottled beverages and other items in the fridge door thanks to Gallon Door Storage, which frees up space in the rest of the fridge.

Large Capacity

The refrigerator has a big capacity, so there's plenty of space in the fridge and freezer to store any shape or type of food. The refrigerator also has four doors that open out widely, so you can see everything at a glance.

WASHING MACHINE

COLLECTION 2023 — 2024

FRONT LOAD
WASHING MACHINE

Smart washing
Easy living

ConnectLife, Steam, and Hygiene Guard can let your washing become much more smarter and convenient.

HYGIENE GUARD+

The newest Series 5S washer is designed around hygiene. With a wide range of features like jet wash, sterile rubber seal, anti-bacterial soapbox and automatic drum clean, your laundry will always be clean and germ-free.

STEAM

The high-temperature steam fully-penetrates the clothes – helping to eliminate 99.99%* of Escherichia coli and Staphylococcus aureus. So you can guarantee your clothes are not just clean from dirt, but bacteria too.

JET WASH

The top-mounted jet drastically improves your wash at every step. The jet makes help remove stains from your favorite clothes and the detergent will be evenly spread to give you the perfect washing results.
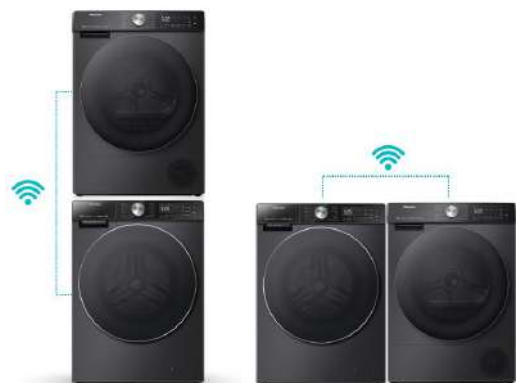

CONNECTLIFE

ConnectLife supports you in any location in anytime to better arrange your laundries. The Wi-Fi Connectivity brings you various options to properly start your programme and receives notification messages from your phone.

FRONT LOAD TUMBLE DRYER

Smart drying
Easy living

Hisense's dryer brings a better drying experience. ConnectLife, Intelligent TFT Display, and Self-cleaning Condenser can let your drying become much more smarter and convenient.

POWER STEAM

Before your washing cycle starts, steam is released from the top of the drum, helping to remove wrinkles and odor. The right amount of water is then added, making your shirts smoother – without any ironing required.
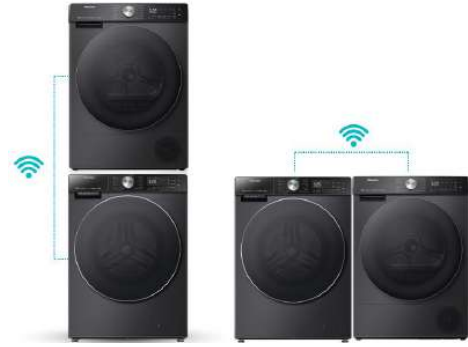

CONNECTLIFE

ConnectLife supports you in any location in anytime to better arrange your laundries. The Wi-Fi Connectivity brings you various options to properly start your programme and receives notification messages from your phone.

ALLERGY CARE

The sterilization drying uses high temperature hot air, which can remove 99.99% of Escherichia coli and Staphylococcus aureus without affecting the drying effect, leaving clothes dry and clean. No need to worry about allergy anymore.

SELF-CLEANING CONDENSER

With the Hisense self-clean function, the dryer will automatically clean and remove any lint left in the condenser, keeping your dryer clean and in a tip-top shape.

SERIES 5   5S

FRONT LOAD
WASHER & DRYER

Smart washing
Easy living

Hisense's 2 in 1 washer & dryer brings a better washing experience. ConnectLife, Auto Dosing and Slim Display can let your washing become much more smarter and convenient.

WASHER& DRYER 2 IN 1

Hisense's 2in1 solution allows you to wash and dry your laundry in just one appliance. Get the same quality results in half the space and with less work. This greatly improves the convenience of washing and drying clothes.

ENERGY MONITORING

Monitor your energy usage via ConnectLife APP. See how much electricity and water you've used per week, month and even year, and check estimated costs! By utilising this data, you can determine the best time to do your laundry to save both energy and money.

SMART ASSIST

By choosing the fabrics type, color, dirt level and any other stain, the washing machine will wash your clothes with a perfect combination of the right temperature, time, and water. Your clothes will always be in top shape.

SMART CONTROL

Smartly control your washer&dryer, including start, pause and various operations thanks to ConnectLife. Accessing and controlling your appliance is just a tap away, wherever you are.

HYGIENE GUARD

Hisense's product can remove bacteria through drum clean and soapbox clean, and the Pure Jet function can wash away the stains on the door and bellow. The bellow here is also made of sterile material.

AUTO DOSING

Your washing machine will automatically choose the precise detergent or softener dosage according to the weight of clothes. Better still, this machine can store up to 24 loads at one time - about a month without adding it again*.

*Based on the average of 6 loads per week / 5kg load / Medium soil level. Actual results may vary depending on individual use, the washing load and settings.

ALLERGY STEAM

At the beginning of washing cycle, the Allergy Steam program releases penetrating steam that can eliminate 99.99% allergens and other microbes while keeping your favourite clothes clean and protect your skin.

STEAM REFRESH

Freshen up your laundry with the power of steam. The combination of steam and rotation removes unpleasant odors while softening your clothes without the need for a washing cycle, saving you water, time, and energy.

Hisense *life reimagined*

TOP LOAD
WASHING MACHINE

Smart washing
Easy living

With features that enable you to reliably achieve perfect washing results quickly, intuitively, silently and efficiently without damaging garments, Hisense's Top Loader embodies the elegance, gentleness and intensity of a mountain stream.

SMART ASSIST

Just choose your clothes style, color, dirty level, fabric, and the washing machine will do the rest for you.

What colour is your loundry?

- White
- Bright
- Vivid
- Dark
- Black
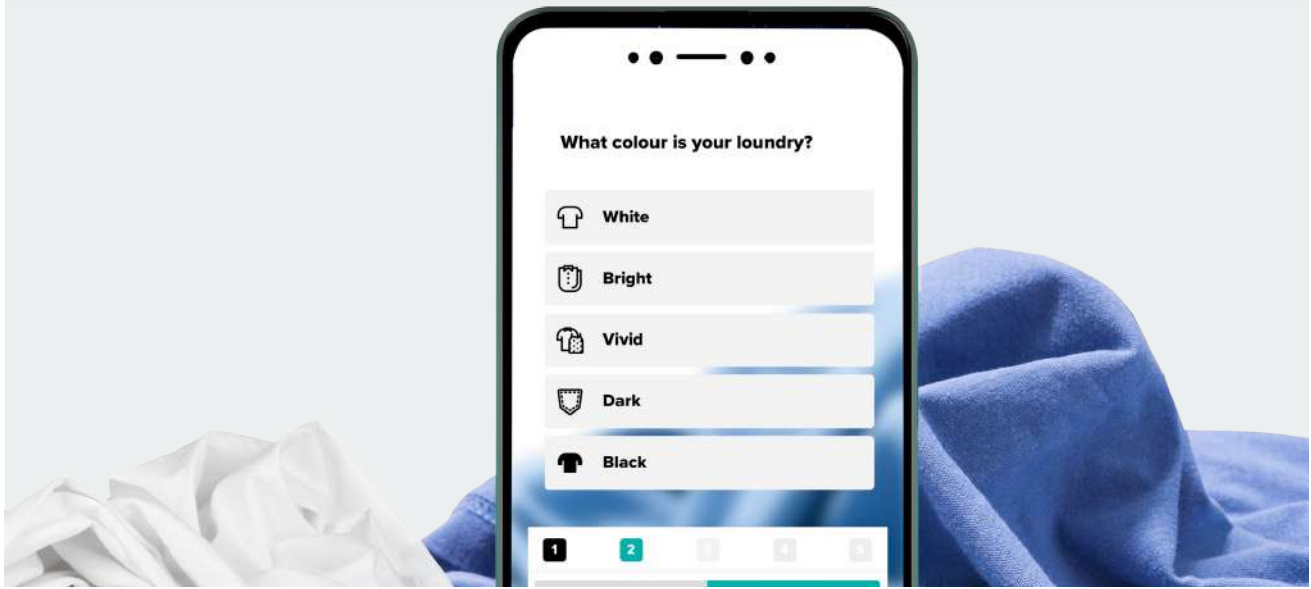

SMART CONTROL

Smartly control your washing machine, including start, pause and various operations thanks to ConnectLife. Accessing and controlling your appliance is just a tap away, wherever you are.
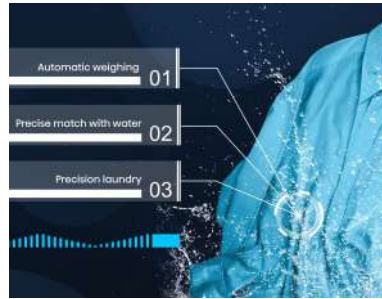

SMART FUZZY

Enjoy precise laundry with Smart Fuzzy Control technology, The washer can weigh the laundry automatically and match the water levels accordingly. It makes washing much more convenient.

DD INVERTER

Hisense's direct drive technology uses frictionless mechanisms, which means your motor will work better without wasting more energy and vibrating less. This means it will last longer and work so quietly, even a baby could sleep next to it.

TIDE WASH

With faster rotation speed and shorter suspend time, Hisense top-load washer provides more powerful water splash forces detergent deep into your clothes for a thorough wash in less time.

REAR CONTROL

The Rear Control Panel offers a brand new appearance to Hisense top-load washer, which is more in line with the user's usage habits. More importantly, the rear control panel is more secure and durable, preventing safety problems caused by water droplets on the panel.

BUBBLE CLEAN

Hisense's Bubble Clean detergent box has a maze-like structure that facilitates dissolving and activation of the detergent, generating the bubbles that penetrate deep into the fabric fibers to remove stains.

MEGA CAPACITY

A bigger tub that allows you to do more laundry at once, satisfying your laundry need for whole family. This saves you time, energy and water, that would otherwise be wasted.

MICROWAVE OVEN

COLLECTION

2023 - 2024

TAILORED COOKING

To be your own chef

If you know exactly what you want to cook and how, simply choose between five microwave power levels, grill or grill combi, set the cooking time and start to cook!

Multi-stage Cooking

You can cook in 2 stages by manually programming the steps of cooking process to ensure all food are cooked at the perfect temperature in different stages without stop.

Time & Weight Defrost

This microwave features time and weight defrost options. Simply input the weight, the defrosting power and time will be adjusted automatically, perfectly keeping the original texture and flavor of ingredients.
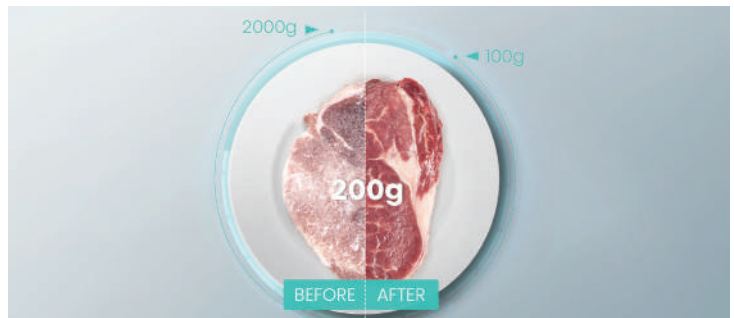

Speedy Cooking

The microwave allows rapid heating at a single touch. With 100% microwave power, you can have your food cooked or reheated with much less waiting time.

Combination Cooking

Combine the advantages of grill and microwaves to experience entirely new dimensions of cooking, which allow you to roast a smaller chunk of meat, bake a pizza and other dishes much faster.

Child Safety Lock

The child safety lock gives you extra peace of mind and the highest level of safety while preventing young children from opening the door while in use.

PRESET PROGRAMMES

Cooking has never been so easy

The product comes with 6/7 pre-set auto cooking menus, such as pizza, popcorn, potato and more, allowing you to cook at a push of button.

AIR FRYER
COLLECTION

2023 – 2024

COOKING MENU

Preset frying programs

You can use automatic settings for the preset programs, including meat, chicken wings, shrimps, fish, pizza, french fries, muffins or vegatables.

Double Basket

Double basket allows you to prepare larger quantity of food at once. Double basket system ensures healthy cooking and easy to use and to clean manner.

Airfry

Hot air is circling from top to bottom and back up to create perfect heat distribution. For crispy crust and moist in the middle with very little or no added oil.

Touch Control

Clearly visible LED display with touch control panel is easy to use.

AIR CONDITIONER

COLLECTION

2023 – 2024

RESIDENTIAL
AC

SECURE

Hi-AMP Control

One button, switch current, AC can continuously operate, without worrying about the current limit time. Don't worry about electricity limit, it can bring you durable comfort and cooling all the time.

Electric Reactor

The independent reactor stabilizes the output voltage and ensures the stable operation of the outdoor circuit.
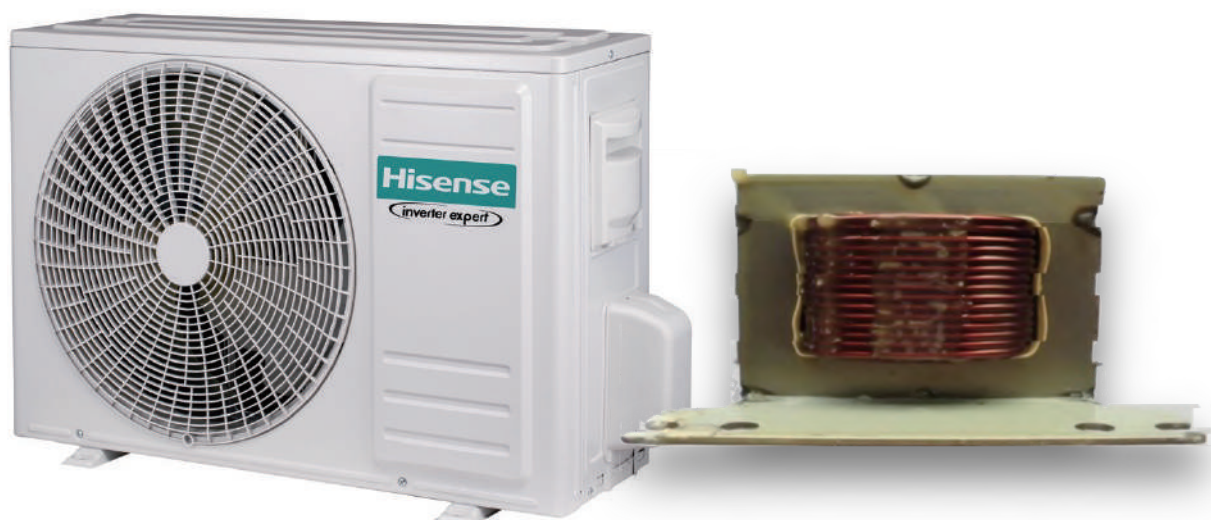

COMFORT

Give you a good mood

Long Distance Airflow

By combining centralized air supply, big fans, and advanced DC inverter compressors, the AC system can cool large spaces up to 18 meters away. This means it can evenly distribute cool air throughout your home, making every part of your house comfortable and refreshing.

Sleep Mode

Providing different sleep temperature care for family members, so you can enjoy a sound sleep in a comfortable environment.

ENERGY SAVING

Minimize power consumption while providing cooling comfort

Twin Rotary DC Inverter Compressor

Reduce friction during operation, make rotation more stable, vibration less, and prevent the leakage of refrigerant gas during compression.

ECO Mode

One button, AC immediately enters the energy-saving mode to minimize power consumption, which can save 30% power compared to ordinary inverter AC and saves 70% power compared to ON-OFF AC.

HIGH RELIABILITY

No fear of high temperature

High Temperature Resisitance PCB

The PCB board in the inverter air conditioner can still run normally under the high temperature of 85℃. High reliability, long life running.
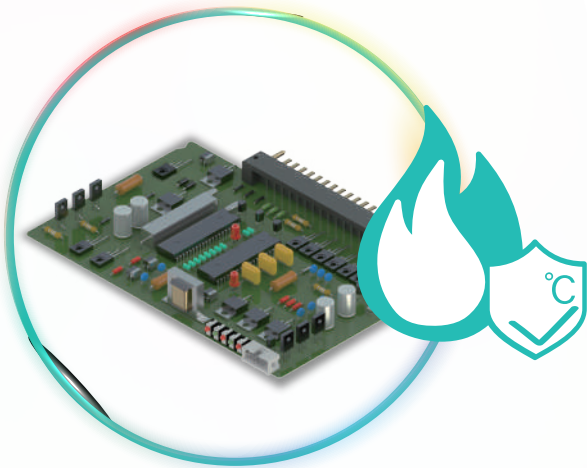

Self Diagnosis & Automatic Protection

Enjoy the benefits of real-time monitoring and self-diagnosis, which includes displaying error codes in case of a malfunction. Additionally, our system offers an emergency power-down feature to prevent overloads.

3 Minutes Protection

The 3 minutes protection can avoid damages to the compressor and extend the compressor's life span.

Anti-corrosive Golden Fin

The unique anticorrosive golden fin can withstand the salty air, rain and other corrosive elements. According to the salt spray test, the level of corrosion protection is significantly 3 to 4 times better than normal fin. It also has better hydrophilic, higher heat exchanging efficiency and more attractive than normal fin.
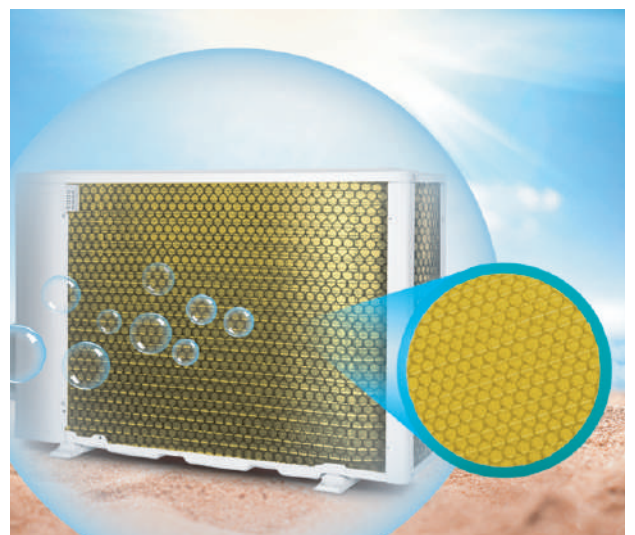

TECHNOLOGY

Emphasis on independent innovation, focus on comfort

HI-SMART

Advanced self-adaptive BLDC compressor driver technology makes the air conditioners run more quietly and more efficiently, and bring more comfortable experiences to the consumers.
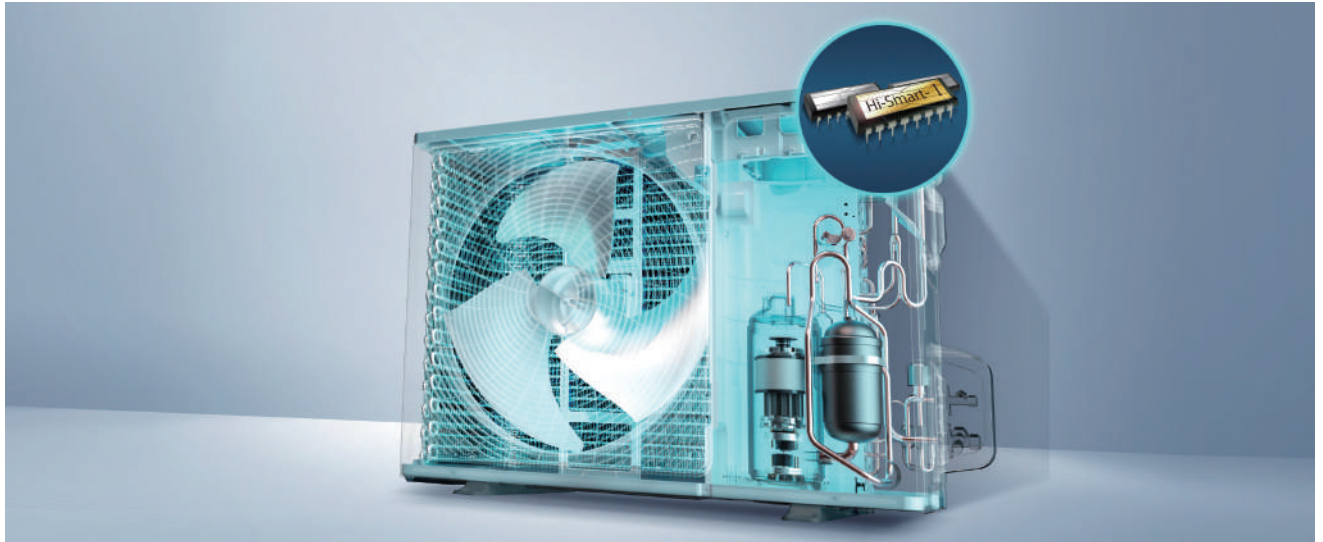

QSD Rapid Frequency Conversion Startup Technology

Through our QSD rapid inverter startup technology, the compressor can quickly reach its maximum operating frequency, enabling rapid cooling. The dual-mode frequency conversion capability saves energy for both short-term and long-term use. This efficient power-saving mode ensures gentle cooling, suitable for the elderly and children to prevent catching a cold. Furthermore, our long-lasting energy-saving mode provides instant refreshment and cooling for those who are sensitive to heat.

RELIABILITY

Low Voltage(150V)

PFC control technology can make voltage compensation under low-voltage conditions, and the system can turn on or off PFC (power factor adjustment technology) according to voltage conditions, so as to realize low-voltage startup and efficient operation when voltage is stable. When voltage goes down to 150V, It can running stably used unique electronic components.
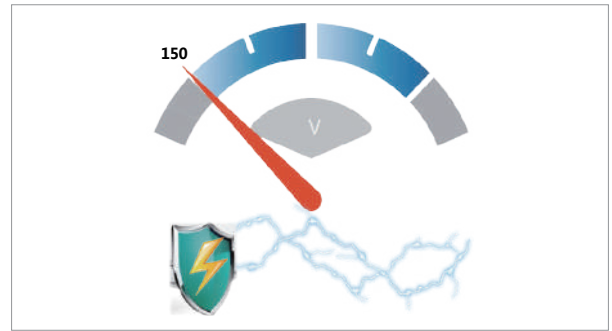

The AC can still run stably even when the voltage is low to 150V

Super Mode

By pressing the "super" button, the air conditioner is not affected by the ambient temperature, and always runs at the maximum power and air volume to quickly reduce the indoor temperature.

Fast Cooling

QSD rapid inverter startup technology is Industry No.1 CLOSED-LOOP BLDC Startup. Through QSD rapid inverter startup technology, compressor can reach the highest frequency in a short time and achieve fast cooling.

Fire-Proof Electric Box

Use internal fireproof plastic case, prevent catch fire from any electric accident.

ROUND FLOW CASSETTE

Round Flow

Round air supply optimizes room airflow, ensuring that a comfortable airflow reaches every corner and that the temperature of the entire space is perfectly balanced.

Round Flow

Conventional Flap

New Wild Flap
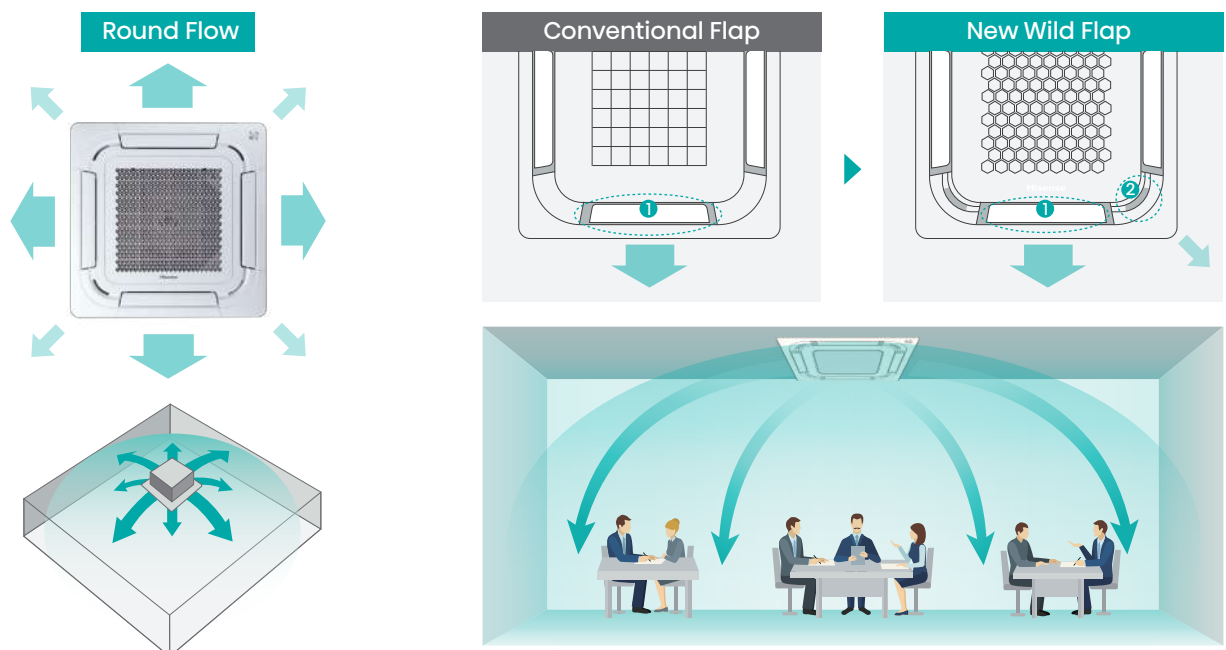

Wide Airflow

The swing airflow can widely reach up to 88°.
Thanks to wide airflow, we can get the cooling ceiling airflow and strong heating airflow.

Conventional Flap	New Wild Flap

88°C
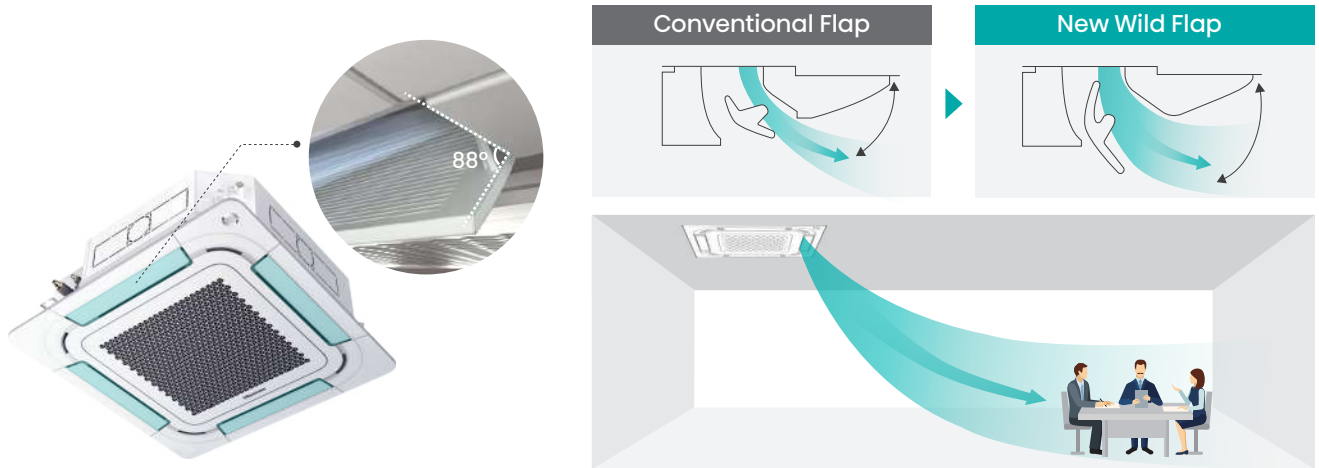

High Efficiency Coil

The cassette adopts a G type design with a larger heat exchange area. Compared with traditional heat exchanger, it is more high-efficient and more power-saving.

Traditional Heat Exchanger	G Type Design Heat Exchanger

Traditional   G Type

■ Higher Heat Transfer
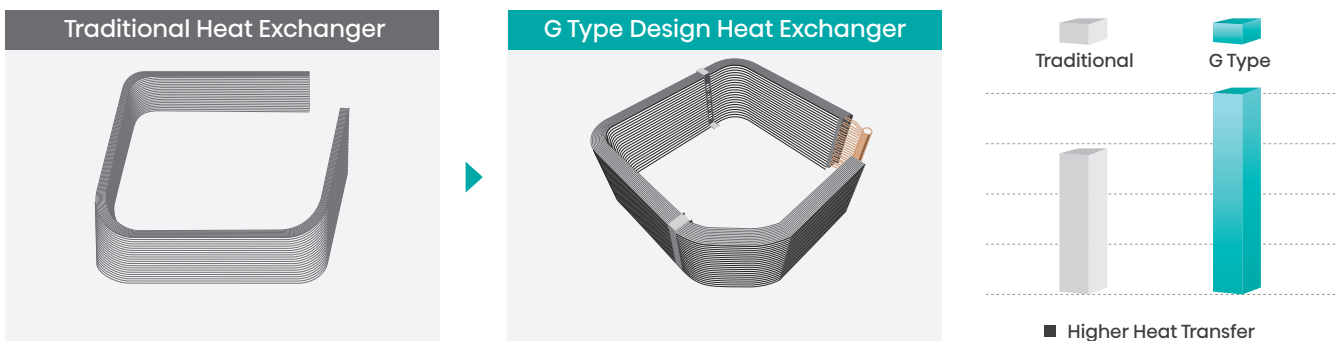

Fresh Air Intake

The fresh air intake can introduce the outdoor fresh air into the room to improve the indoor air quality.
* The fresh air volume cannot exceed 20% of total design air volume.

Fresh Air
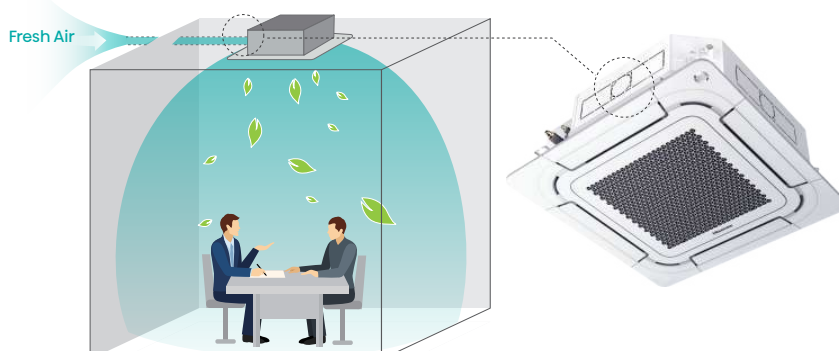

DUCT

Slim Design

Slim duct unit, from 2.5kW to 7.0kW, have the height of only 190mm.

Only **190** mm
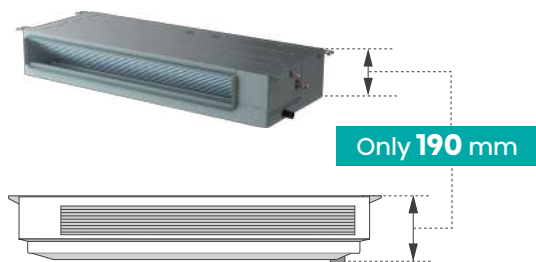

HSP Up to 250Pa

The external static pressure of ESP Duct unit up to a maximum of 150Pa makes it appliable for a wide range of building types.

250 Pa

Easy Installation

Air suction direction can be altered from rear to bottom, giving a choice between free use and connection to optional suction grilles.

* The noise value of rear suction is 5dB lower than that of the bottom suction, so rear suction is recommended.

■ **Bottom Suction**

Air Supply •

Ceiling •

• Air Return

■ **Rear Suction**
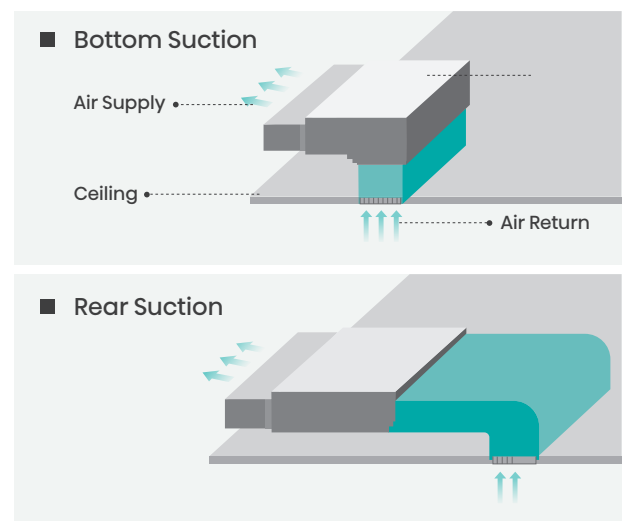

Float Switch

The float switch can ensure the water is always under the safety level, even if the pump failed or the drain is blocked. This is double insurance for no water leakage disaster. Hisense duct units are all standard with float switches. The drain pan of Hisense is big enough for containing all the water returned from the drain pipe in suddenly power off.

❶ When the water plate is working, the float switch is at a low point and the duct is running normally.

Alarm

The Water Pump

Sink

Block

Water Level For Alarm

Float Switch

❷ When the pump stops working and the water level rises, based on the large drain pan design, the machine is still running normally.

❸ When the water level rises to that the float switch touches the alarm , the duct stops working.

OFF

Inner High Lift Pump

The maximum lift of Hisense high lift pump components can be as high as 1200mm.

* In order to ensure smooth drainage in long-term operation, the recommended drainage height is ≤800mm.

Max 1200 mm
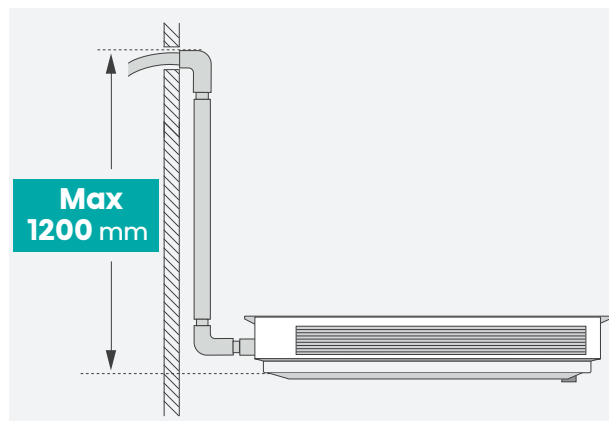

1Pa Adjustment

It is possible to adjust the ESP setting via wired controller. And the precision of 1 Pa can give the most accurate ESP setting in class.

* YXE-C01U1(E) is recommended to set the ESP parameter.(Parameter setting 17→10→from 1 to 250)
Warning: The slim duct with the capacity of 7.0kW(24K Btu/h) has the max ESP 40Pa. If we have to install the duct unit with a long duct, we have to choose the MSP duct of 7.0kW(24K Btu/h).

FREE MATCH
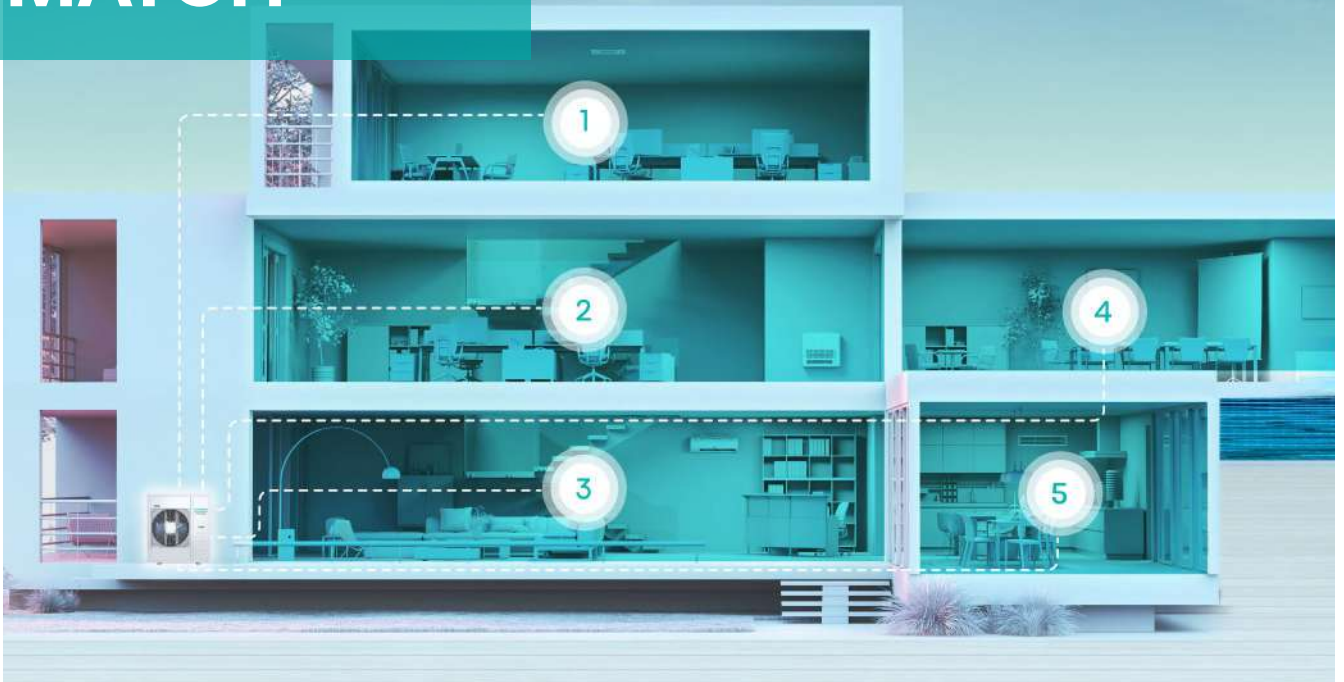

Compact Design

Lighter and more compact units for easier and more flexible installation, as well as easier transportation with a higher potential volume of ACs per transportation unit.

Note: Hisense has the most compact 1 by 2 multi-split outdoor unit mode in class.

540mm

715mm   240mm
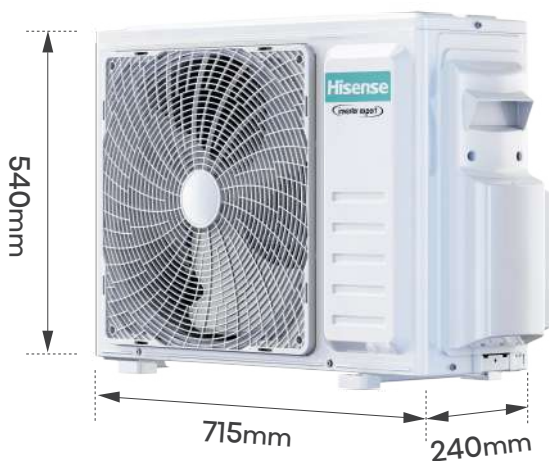

■ Unit Size: Reduced By 10%
   Units Height: Reduced To 0.54m

10%

Allows up to 392 units to be transported at once.
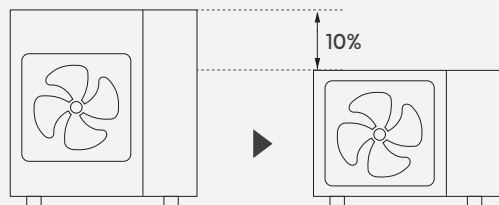

Multi Split Up To 5

The maximum number of indoor units that the outdoor unit can match is up to 5.

■ Maximum 5 indoor units can be connected
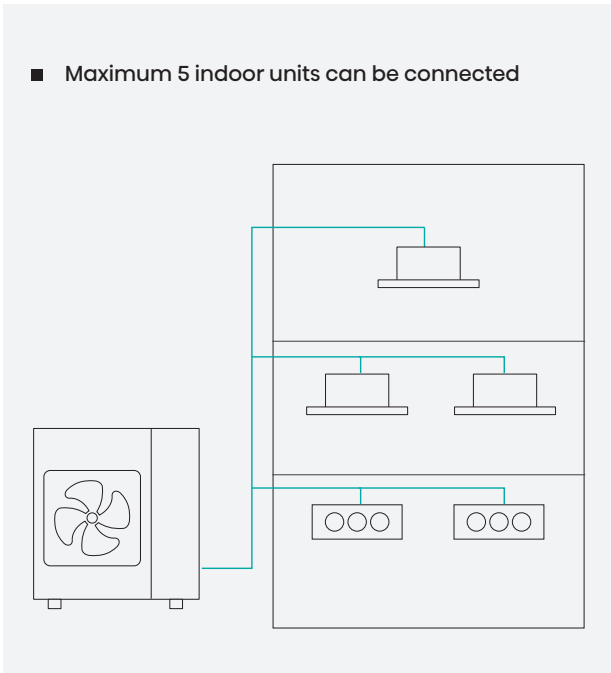

New Path Design

The reverse path design improves efficiency of the exchanger greatly. Super cooling paths improve the cooling capacity of each unit and lengthen the pipes between the exterior and interior units.
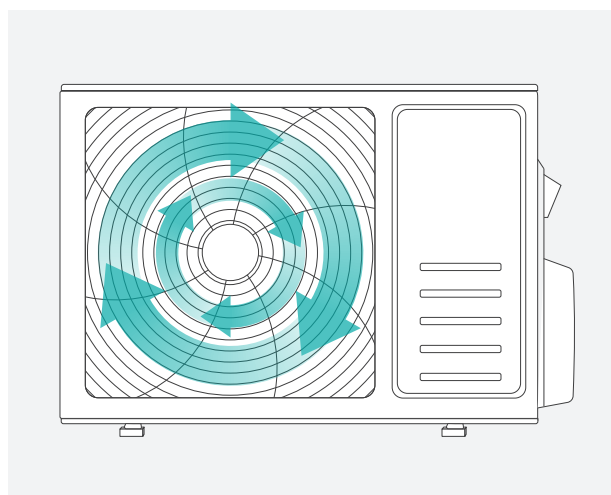

Big Family

We will have 10 models of the R32 Freematch on sale in the near future, providing customers with more choices than ever.
The whole family of models is fully DC so they can be used in 50Hz or 60Hz countries and regions.
